CEO'S MESSAGE
Junaid Kapoor

Education is the basic right of all human beings regardless of their social background. An educated nation is democratically stable and consistent in its economic growth,

Though the state is primarily responsible to provide quality education, this task cannot be accomplished without creating awareness and joint endeavors by the stakeholders of our society.

As CEO, I am proud of our school's commitment to academic excellence, character development, and fostering a love for learning.

At The Northstar School, we offer a rigorous and comprehensive academic program that is tailored to meet the individual needs of each student. Our curriculum is designed to challenge and inspire students, encouraging them to think critically, solve problems, and develop a lifelong love for learning.

We believe that character development is an essential part of education, and we work hard to instill values such as honesty, integrity, and respect in our students. Our experienced and dedicated faculty members serve as positive role models for our students, helping them develop the skills and character traits they need to succeed both in and out of the classroom.
